

# Assignment Proposal

*Thomas Kerslake*

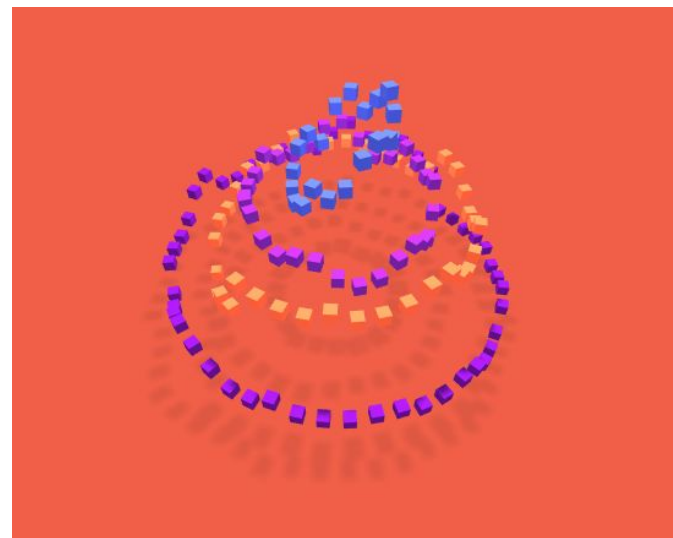

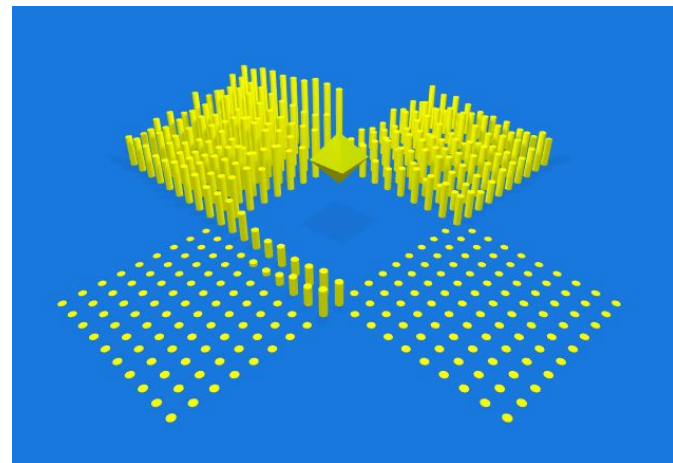

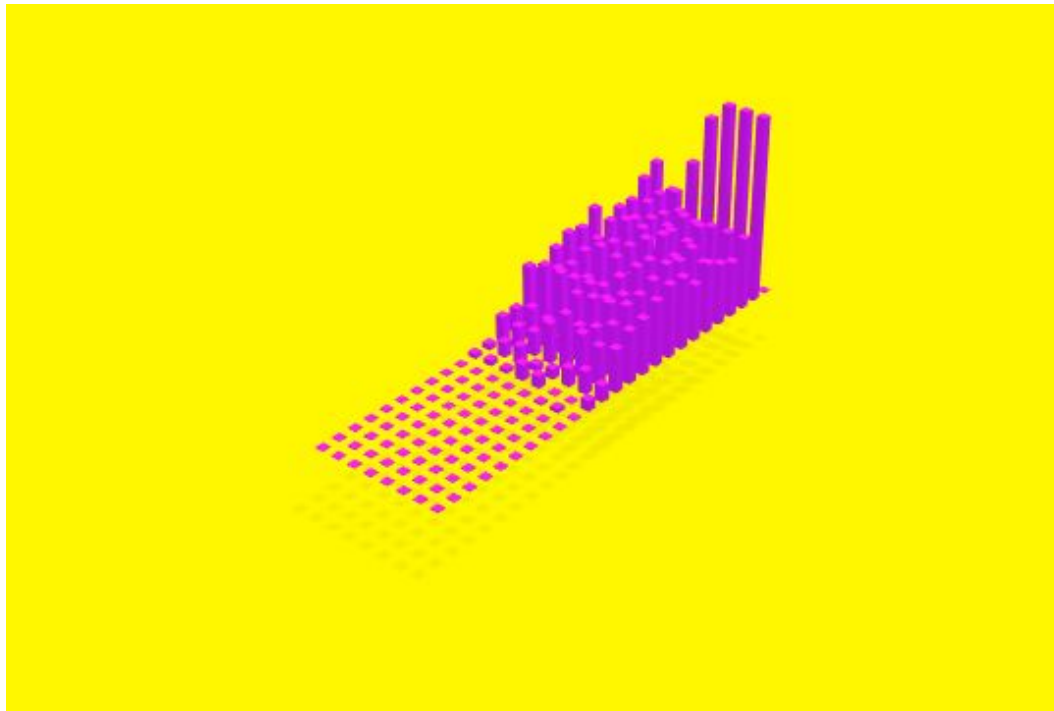

# The direction - Audio Visualization

- To make use of a single piece of music or multiple pieces and create an artistic visualization from analysing the audio frequencies.

# Inspiration - *Ion Drimba Filho*

[https://codepen.io/iondf\\_/](https://codepen.io/iondf_/)

# Expected outcomes

- I have begun to play around with audio visualization at a basic level and have started to get to grips it. I hope to achieve a similar level of quality to that of *Ion Drimba Filho*.
